FTX charges borrowers an additional fee; for borrowers, it's already baked into the rates they see. See below for an explanation on how these are calculated. The interest rates are generally quoted in % per day (e.g. 0.05%/day); 1/24th of that is paid out on the hour.

Any cryptocurrency that you have deposited on FTX as well as any fiat balance you may have on your account, will earn yield immediately after you have opted into the program. The first \$10,000 USD value in your deposit wallets will earn 8% APY. Amounts held above \$10,000 USD value (subject to market fluctuations) will earn 5% APY.
