#### DAS Trader Download Links and Tutorials

The following steps will teach you how to send funds (ETH tokens) to a MetaMask wallet. Step 1: Go to Coinbase.com and sign in with your email address and password. Step 2: Log into your MetaMask Wallet and click on the three dots above Buy and Send. Source: The Medium

its pretty simple. im not an expert with this stuff and am still learning myself but i can offer what i know. -- so assuming you have a coin base account- you will have an eth wallet connected to your coinbase account. in coinbase hit receive in your eth wallet and your coinbase wallet adress will pop up. copy that. then go into your metamask wallet an click send. put in your coinbase eth wallet and send it.

MetaMask is Ethereum based. (No Bitcoin) There is no connection other than a transfer transaction which is mainly a blockchain database update. All wallets have a send/receive button. Please sign in and read from top to bottom each wallet. You have to train yourself how to use each in your own time. 2.5K views Manasseh Mathias
