API stands for Application Programming Interface. As the name already suggests, it is an interface used to link the ProfitBird platform with the exchanges. If you provide your ProfitBird account with the API Key and Secret of your Coinbase Pro account, then the ProfitBird Platform is able to invest and trade on your exchange account on your behalf. So the API Key and Secret act as a unique identifier for authentication.

It has a circulating supply of 41,059,833 FINE coins and the max. supply is not available. If you would like to know where to buy Refinable, the top cryptocurrency exchanges for trading in Refinable stock are currently Gate.io, ZT, LBank, PancakeSwap (V2), and BitMart. You can find others listed on our crypto exchanges page.

Cryptocurrency services are provided by Alpaca Crypto LLC (Alpaca Crypto), a wholly-owned subsidiary of AlpacaDB, Inc. Alpaca Crypto LLC is not a member of SIPC or FINRA. Cryptocurrencies are not stocks and your cryptocurrency investments are not protected by either FDIC or SIPC.

Refinable price today, FINE to USD live, marketcap and chart .

An API Key can be considered as a username. This is generated by the exchange once you declare your settings. An API Secret or API Private Key is simply another string of characters that must be used in combination with the API Key to establish the connection. An additional security layer can be added by generating an API Passphrase. While the API Key and Secret are generated by the exchange, the Passphrase is commonly generated by the user.
