When you check Binance fee schedule, you'll notice that different fees are charged depending on whether you're a maker or a taker. According to the Binance website, maker trades happen when you place an order that goes on the order book partially or fully, such as a limit order placed via the trading screen on binance.com. The platform lets you stay anonymous unless your country has certain laws that require crypto exchanges to perform KYC checks on all their customers in order to be compliant. Some payment methods also require some form of ID verification.
