An international money transfer or international bank transfer (also commonly referred to as an international wire transfer) involves sending money to either another person and/or company overseas. This transaction can be completed either through a bank (the traditional method) or a specialist money transfer service.

Launched as recently as late 2017, Binance is a third-party exchange platform that allows users to buy, sell and trade cryptocurrencies such as Bitcoin, Ethereum, Bitcoin Cash, and hundreds more. Although the company now has its headquarters in the European Isle of Malta, the project was founded by Chinese national Changpeng Zhao (CZ).

Volume is what makes exchanges money. They collect transaction fees on trades through their platform typically a percentage of the total value traded. Without a certain volume threshold, exchanges will ultimately fail to be profitable business ventures. For you, as a cryptocurrency investor, exchange volume is equally important. Exchanges are your best bet at buying, selling, and trading cryptocurrencies.

The international money markets major responsibility is to handle the currency trading between the countries. This process of trading a country's currency with another one is also known as forex trading. Unlike share markets, the international money market sees very large funds transfer. The players of the market are not individuals; they are very big financial institutions.
